CALL FOR PAPERS

- **Smart Grid**
Smart Sensors and Advanced Metering Infrastructure
Power and Energy System Applications (generation, transmission, distribution, markets, operations, planning)
Impact of Smart Grid on Distributed Energy Resources (electric cars, demand response, distributed generation, storage)
Energy Management Systems (with applications to smart buildings and home automation), etc.
- **Smart City**
Intelligent urbanism
Smart city
Platforms and technologies
Smart city roadmap
Environmental sustainability
Heritage conservation, etc.

2017 IEEE International Conference on Smart Grid and Smart Cities (ICSGSC 2017) will be held in Singapore during July 23-26, 2017. The smart grid is envisaged to be the next generation electric grid for Smart Cities. It enables the smart integration of conventional power generation, renewable generation, distributed generation, energy storage, transmission, distribution and demand management. The benefits of smart grid include the enhanced reliability and resilience, higher intelligence and optimized control, decentralized operation, higher operational efficiency, more efficient demand management, and better power quality. However, all these prospected transformations also bring with them numerous challenges and opportunities.

IMPORTANT DATE

Paper Submission Deadline	May 10th, 2017
Notification of Acceptance	June 10th, 2017
Registration Deadline	June 20th, 2017
Conference Dates	July 23-26, 2017

PROCEEDINGS

After a careful reviewing process, all accepted papers after proper registration and presentation, will be submitted in the ICSGSC 2017 conference Proceedings by IEEE, and reviewed by IEEE Xplore and Ei Compendex.
